

CLASSIC Cashmere | DENSE LINE

Trace & Buy: www.pamirfinefibers.ch

Yarn made of 100% pure cashmere, 7-ply, guarantee of fair production and full traceability

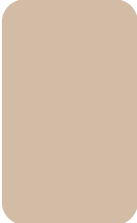

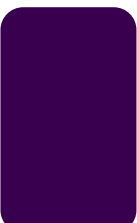

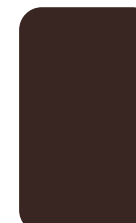

Our DENSE LINE stands for durability, resistance and low pilling. Results from independent laboratory tests for abrasion and resistance showed up to 45% higher resistance compared to similar yarns. Please note that unwashed DENSE LINE yarns have a little rougher touch - however the uniquely warm, soft and light characteristics of cashmere fibers evolve with wearing and washing. We recommend hand washing once before wearing. After washing once or twice, they develop their full volume.

The DENSE LINE CLASSIC yarns are especially suitable for knitting accessories that can be worn every day. With 59 meters per 25 grams, the CLASSIC is a classic double-knit (DK) yarn that develops its full volume after washing once or twice.

No secrets from fiber to yarn: We place great importance on a transparent, socially fair and environmentally friendly production, paying the farmers in Kyrgyzstan a fair price for the quality of their fibers. You can find more detailed information and the complete process chain on www.pamirfinefibers.ch.

Article group	005	Knitting gauge (10x10cm, stockinette stitch) 22 stitches x 30 rows Tip: wash gauge prior to calculating the size and do not knit too tight, as the yarn develops its full volume only after washing and wearing.
Composition	100% cashmere, 7-ply	
Meterage	25g / ~59m	
Needle size	4 - 5	
Washing instructions	 use detergent for woolen fabrics only	
Packing size	Single balls
